

How well do you know yourself ?

Draw a tree, the first tree you can think of...
And discover possible explanations !

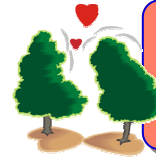

TOP SECRET

TRUNK
The trunk reveals a balanced or unbalanced personality.

A short trunk shows you often change your mind and attitude.

Drawings on the trunk reveal you need to have many friends.

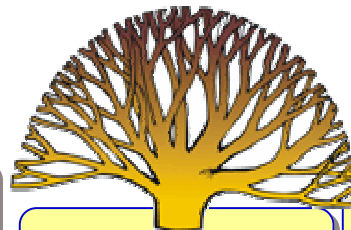

Cut-off branches indicate you feel nobody can understand you. You choose to be a loner.

ROOTS

They represent the secret part of our personality.

Clearly defined roots show you need help in everyday life.

If you didn't draw roots, you don't want to talk about yourself.

If they open outwards, you are interested in other people. You are always ready to help.

BRANCHES AND LEAVES.
They reveal your relationships with other people.

If the branches are inward-turning. You don't want to spend a lot of time with other people.

If the branches aren't finished or if they open at the ends, you often change your mind. You start things but don't finish them.

If your tree has got flowers or fruit, you are happy and you love being with others. Perhaps appearances are a little too important for you...
