Parents or
teenagers ?

3e Canberra
2014-2015

I will be with my friends.

There are no drugs or alcohol during these concerts.

I'm not a child any more. I can go to the rock concert.

I know you don't like this type of music. So, you don't need to come with me.

I'm serious and reliable. You can trust me.

we don't know your friends. Who are they ?

I've already been to a rock concert before... I don't believe you !

It's only for adults, not for teenagers

I prefer to go with you because I don't want to leave you alone

we trust you but we don't trust other people

If you've already been to a rock concert... I can go too ! Times change

It's noise for you but I like this music. I think Mozart is noise !

I will be with my friends. So, nobody can hurt me !

you've been to a rock concert before... and you aren't violent !

I'll call you if I have a problem and my friends can help me

It's for my (personal) culture.

It's ugly music. Actually, it isn't music at all, it's noise !

It can be dangerous. You may be hurt.

The people who go to these concerts are violent.

If you have a problem, who can help you ?

your culture is good enough !
